

The ATLAS Boogie

Canettes Blues Band

[16-bar piano intro]

*We got the LHC running now, ATLAS you're my home [x2]
I've been working all night out at Point 1
Looking for the Higgs, that son of a gun
We got the LHC running now, ATLAS you're my home*

*In the Inner Detector, we've got all kinds of tracks [x2]
We've got the SCT and the TRT
The Pixel Detector won't let me be
You gotta have all them tracks if you want the facts*

*If you're looking for heat, we've got the calorimetry [x2]
There's the Liquid Argon and the HEC
The Tile Cal's plum full of energy
Because there's a little energy in everything we see*

*We got the LHC running now, ATLAS you're my home [x2]
I've been working all night out at Point 1
Supersymmetry is lots of fun
We got the LHC running now, ATLAS you're my home*

[16-bar piano solo]

*In the Muon Spectrometer, everything's going just fine [x2]
We've got the MDT and the CSC
The RPC and the TGC
Everything will be just fine if we stay in line*

*We're surrounded by the greatest magnets you'll ever see [x2]
We've got a solenoid and three toroids
The muons are getting paranoid
No matter how fast they go they just can't get free*

*We got the LHC running now, ATLAS you're my home [x2]
I've been working all night out at Point 1
Looking for everything under the sun
We got the LHC running now, ATLAS you're my home*

[16-bar harp solo]

*We got the LHC running now, ATLAS you're my home [x2]
Our friends at 2 and 5 and 8
Might find the Higgs, but it'll be too late
We got the LHC running now, ATLAS you're my home*

*Yes, our friends at 2 and 5 and 8
Might find the Higgs, but it'll be too late
We got the LHC running now, ATLAS you're my home*
