

Screensaver Woman

Canettes Blues Band

[12-bar guitar intro]

*You are my screensaver woman, I've got you on my screen
You are my screensaver woman, I've got you on my screen
And when the lights go down, you're the finest thing I've ever seen*

*You went away and left me, a long long time ago
Now I only see you when my power's getting low*

*You are my screensaver woman, I've got you on my screen
And when the lights go down, you're the finest thing I've ever seen*

[12-bar guitar solo]

[12-bar piano solo]

*You never really left me, you're always on my mind
Ten thousand of your pixels and every one looks just fine*

*You are my screensaver woman, I've got you on my screen
And when the lights go down, you're the finest thing I've ever seen*

[12-bar harp solo]

[12-bar sax solo]

*You really are so lovely, your hair so soft and gold
I love you pretty baby, you are my laptop centerfold*

*You are my screensaver woman, I've got you on my screen
And when the lights go down, you're the finest thing I've ever seen*

[12-bar guitar and out]
